3. Who does what

When	What	Who
This week	Send each broker its scorecard and book the review meetings	Head of trading
This month	Fill in the reason for every exception in the order review sheet	Traders
Within 30 days	Review the explanations, set each status and sign the best-execution report	Compliance
This quarter	Change the routing that the committee agreed	Head of trading
Next quarter	Rerun on the new period and compare	Quant team

4. How the files work together

- **Broker scorecards** go to each broker before the review meeting; each page covers that broker alone.
- Traders write the reason for each exception in the **order review sheet**. In the dashboard, choose *Load the updated file* and pick it to see what is still open; the file stays on your computer.
- The **presentation** has speaker notes on every slide, and its charts can be edited in PowerPoint.
- The **workbook** recalculates: choose an algorithm in the yellow cell of the Control panel.
- Editing the Excel and PowerPoint files needs Office, or a free tool such as Google Sheets and Slides. Reading them does not: both are inside `00_START_HERE`.

5. What we need for the next run

Orders, fills and market bars for the next period, with the decision price recorded in the order system; the broker and algorithm of each order; the explanations from the order review sheet.

6. Data and access

All client data will be deleted within 10 business days of the end of the engagement (or retained for the next run as agreed).
